

2024 GTAV Geography Trial Exam Marking Grid

Name: _____

Question	Requirements	Marks	Marks awarded and comments
1	- Quantified the overall loss between 2002 and 2016 - Additional detail in the overall loss (e.g. average rate of loss per year or peaks/troughs) - Described locations with ice gains and included quantification - Described locations with ice loss and included quantification	1 1 2 2	
2a	- Identified natural process - Described natural process - Identified human activity - Described human activity - Explained the interconnection	1 1 1 1 1	
2b	- Identified appropriate global or national response - Link to a specific location - Provided elaboration (specific details which could include quantification)	1 1 2	
3	Refer to rubric	10	
4a	- Land use change (LUC) clearly identified - One reason clearly identified - Elaboration of reason, linking to LUC - Planning strategy identified - Influence of strategy, linking to LUC	1 1 1 1 1	
4b	- Clearly identified research question - Identified appropriate primary data - Elaborated with evidence from data	1 1 2	
4c	- Identified one positive impact - Evaluative statement - Provided evidence to support the evaluation - Identified one negative impact - Evaluative statement - Provided evidence to support the evaluation	1 1 1 1 1 1	
5a	Stated a suitable definition	1	
5b	- Outlined one factor contributing to high TFR with elaboration - Outlined one factor contributing to low TFR with elaboration	2 2	

5c	- Identified Country X as growing - Explained the high proportion of the population in childbearing years - Included accurate reference to data with quantification	1 1 1	
6a	- Outlined whether the population is increasing or decreasing in Stage 4 of DTM - Outline that birth and death rates are low and stable in Stage 4 of DTM - Justified why Country Y is in Stage 4 based on the data trends and refer to appropriate data	1 1 2	
6b	- Outlined an appropriate issue - Referenced Stage 5 of the DTM and/or an ageing population	1 1	
7	Refer to rubric	8	
8a	- Stated a suitable example of international migration with reference to a country of origin or destination - Outlined the reason for migration - Elaborated in the form of additional detail or statistics	1 1 1	
8b	- Stated the extent of the change to population structure - Justified the extent of the change with discussion - Elaborated with reference to population growth, population structure diagrams, age cohorts and proportions, and statistics	1 1 3	
9	Refer to rubric	10
